**REMARKS**

**RECEIVED**  
**CENTRAL FAX CENTER**

**AUG 09 2006**

Applicant notes the finding that Claims 2, 4, 5, 16, 18, and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and intervening claims. Therefore, claims 1 and 15 are currently amended to include the limitations of claims 2 and 18, respectively. Further, claims 2, 17, and 18 are canceled, thereby placing claims 1, 3-16, and 19-21 in a condition for allowance. Further, in response to the nonstatutory double patenting rejection, Applicant concurrently submits a terminal disclaimer in the currently pending application number 10/983,154. Additionally, in accordance with MPEP §804(B), Applicant believes that the "provisional" double patenting rejection is the only rejection remaining in the present application and therefore this rejection should be withdrawn.
